

MIAMI VALLEY ACADEMIES

POLICY FOR PARENT AND FAMILY INVOLVEMENT

MVA seeks to build consistent and effective communication between parents and families of students and MVA's teachers and administrators. MVA believes that the involvement of parents and families directly affects the success of their educational efforts.

MVA respects and values parents and families as children's first teachers and the primary decision-makers in children's education. Therefore, it commits to the following:

- Assisting parents and families in acquiring techniques, strategies and skills, by offering trainings and materials they can use to support at-home learning and academic success in school.
- Providing parents and families with timely and meaningful information on Ohio's academic standards, state and local assessments, and legal requirements so that they can make informed decisions about their children's academic future.
- Collaborating with community-based programs, including health and human service providers, to ensure that parents and families have the resources they need to be involved in their children's education, growth and development.
- Helping parents and families create supportive conditions at home that emphasize the importance of education and learning.

Approved by Board of Trustees August 15, 2017.
